

SAN FRANCISCO
WALDORF
HIGH SCHOOL

Your children attend an international school.

Expand their experience by hosting an international student in your home!

International Student Placements has safely placed students with host families for over 16 years. **Eager and enthusiastic families are sought to provide home stays for these international students.** The cultural rewards are wonderful and lifelong friendships are formed.

Students look forward to participating in family outings and activities, and most of all, practicing their English each evening around the dinner table. The students stay throughout the academic year and may go home over the winter holiday, but spend most other holidays with the host family.

ISP Coordinators provide a detailed in-home orientation for all host families and are available at all times throughout the year to answer questions and solve any issues that may arise.

ISP also provides guardianship service for minor children studying in the U.S. although students do not need to be enrolled in an ISP program in order to qualify.

If this opportunity has peaked your interest please review the ISP website at www.isphomestays.com. Most of your questions will be answered by reading the Host application and agreement as well as reading the Student agreement.

Once you've reviewed the ISP site, if you have further questions please contact the ISP San Francisco Housing Coordinator, Harriet Leff, at 415-771-5158 or by email: harriet@isphomestays.com. Otherwise simply fill out the application & agreement and send it in today.

Host families for international high school students are paid a monthly stipend of \$900. ISP also places college students with host families.
